

## Product Support Guide

### D146 / D147 / D148 / D149 / D150/ D176 / D177

<b>Model Type</b>	B/C MFP	
<b>Launch Date</b>	July 17, 2013	January 17, 2014
<b>Serial Number</b>	E15 / E16/ E17 / E18/ E19	E20/ E21
<b>Product Code</b>	D146 / D147 / D148/ D149 / D150	D176/ D177

#### Brand/Model Name

Product Code	Lanier	Ricoh	Savin
D146	MP C3003	MP C3003	MP C3003
D147	MP C3503	MP C3503	MP C3503
D148	MP C4503	MP C4503	MP C4503
D149	MP C5503	MP C5503	MP C5503
D150	MP C6003	MP C6003	MP C6003
D176	MP C2003	MP C2003	MP C2003
D177	MP C2503	MP C2503	MP C2503

The D146 series will provide the following advanced features:

- GW+™ controller is available as well as superior mid/high segment.
- 20 /25 /30 / 35 / 45 / 55 / 60 CPM
- Enhanced Paper Support like SRA3/12.6",
- Duplex thick paper up to 256gsm, Tray 2 supports
- Envelope feeding as a standard feature.
- Real-time process control (Calibration) improves productivity.
- New carries improves deep images at leading edge and minimizes "Halo effect".
- Real time user instruction for clearing paper jams:
- LCD animation, LED lighting.
- New peripherals like Inner Finisher
- Java VM on board as standard feature
- Smart-based operation panel optional

### Branding Information

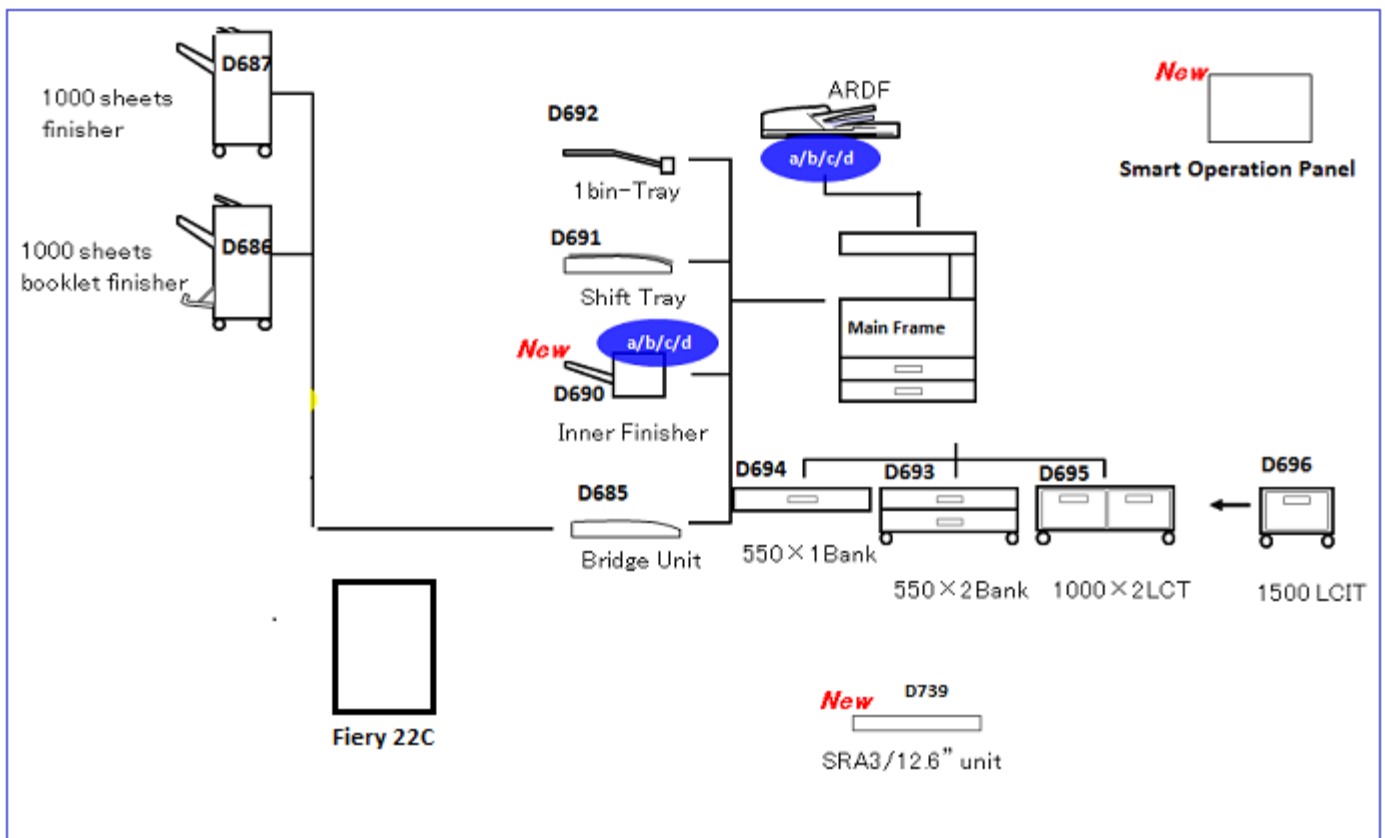

Branding is required as the machines are shipped as a generic version.

**Ricoh version machines:** You must attach the model label (provided) to the front cover.

**Savin/Lanier:** You must attach the model label (provided) to the front cover and set the Plug and Play name with SP 5-907.

### Installation Requirements

Temperature Range: 10° C to 32° C (50° F to 89.6° F)  
 Humidity Range: 15% to 80% RH  
 Ambient Illumination: Less than 1,500 lux (do not expose to direct sunlight)  
 Ventilation: 3 times/hr/person  
 Ambient Dust: Less than 0.075 mg/m<sup>3</sup> (2.0 x 10-6oz/yd<sup>3</sup>)  
 Avoid areas exposed to sudden temperature changes:

Areas directly exposed to cool air from an air conditioner.  
 Areas directly exposed to heat from a heater.

Do not place machine where it will be exposed to corrosive gas or vapor.  
 Do not install the machine at any location over 2,000m (6,500 ft.) above sea level.  
 Place the machine on a strong and level base. Inclination on any side should be no more than 5mm (0.2")  
 Do not place the machine where it may be subject to strong vibrations.  
 Machine level
 

- Front to back: within 5mm (0.2") of level
- Right to left: within 5mm (0.2") of level

# Product Support Guide

## D146 / D147 / D148 / D149 / D150/ D176 / D177

### Power Requirements

Input voltage level: 110 - 120 V, 60Hz: 12A

Do not place anything on power cord.

The required wall outlet is a NEMA 5-15R (receptacle)

### Space

A (Left)	Over 100mm (3.9")
B (Rear)	Over 100mm (3.9")
C (Right)	Over 550mm (21.7")
D (Front)	Over 750mm (29.5")

The recommended 750 mm (30") front space is sufficient to allow the paper tray to be pulled out. Additional the front space is required to allow operators to stand at the front of the machine.

### Foot Print

Dimensions (W x D x H): 1250 mm x 604mm x 1210mm (49" x 23.77" x 47.5") With 2-tray paper bank fall-Prevention material)

NOTE: Measurement Conditions: With Bypass tray closed.

# Product Support Guide

## D146 / D147 / D148 / D149 / D150/ D176 / D177

Part Number	Description	Q'ty/ Unit	PM Interval	Unique or Common
D1496211	PTR Unit	1	400K	
Fusing				
AE020223	Pressure Roller	1	400K	U
D1474036	Fusing Sleeve Unit (D146 / D147)	1	400K	
D1494036	Fusing Sleeve Unit (D148 / D149 D150)	1	400K	
AE030074	Ball Bearing	2	400K	C (D104 / D106)
Other				
D1496400	Waste Toner Bottle	1	100K	U
D1497937	Exhaust Filter	2	300K	

**Note 1:** The yield figures in the above table are based on the following conditions:

- 1) A4 (LT) long-edge feed
- 2) 5% image coverage ratio
- 3) Color ratio: 30%
- 4) print/job

**Note 2:** For most PM parts, the yield will depend on P/J (pages per job) or image coverage ratio.

**Note 3:** When fusing belt unit is used past its target yield, the fusing belt may break, causing a

Service call. Therefore, it is designed that the machine starts displaying a stop warning on the warning on the operation panel at 415k pages and stops at 430k pages. Please make sure to replace the fusing belt unit before the units PM counter reaches 430k pages.

**Note 4:** A customer replaces waste toner bottle. By changing sp 5-073-001, service replace mode for waste toner bottle enabled. Never try to empty toner out the waste toner bottle to use the same bottle again. Always replace the bottle with a new one. This is because the transfer coil inside the bottle may break.

**Note 5:** Additional procedure required when replacing the PCDU / PCU (D149 / D150 only). Changing a spring pressure is necessary whenever you install a new PCDU/PCU on the D149/D150, because it a different spring pressure than do the D146/D147/D148. If you do not do this procedure, the yield of the PCDU/PCU will be reduced to about 1/10 of its target value.

This procedure is NOT NECESSARY for the D146/ D147/ D148 Model	Pressure adjustment
D146	NOT necessary
D146	
D148	
D149	Necessary
D150

## Printer

General Features of Printer Controller				
PDL	Std.	PCL5c, PCL6(XL), PDF Direct, Media Print: JPEG, Media Print: TIFF, XPS		
	Option	Adobe PS3, IPDS, Pict Bridge		
Print Resolution	Max	1200X1200 DPI / 2Bit		D146&D147 Print Speed will Slow down When Printing 1200X1200DPI
	Printing Modes in Each Driver	PCL5c	300DPI (1bit, Only B/W mode) 600 DPI(1, 2, 4bit) <Gradation *> Fast (1bit) / Standard (2bit) / Fine (4bit)	*With the combination of 'Resolution' and 'Gradation' or 'Printing Mode' settings in printer drivers, the variation of print resolutions are as listed
		PCL6	600DPI (1,2,4 Bit) 1200DPI(1,2 Bit)	The Resolution is Selectable from Driver
		XPS	600 DPI (1,2,4 Bit) 1200DPI (1 Bit )	Apply Service Pack 1 Before Using XPS Driver
		IPDS	300DPI ( 1 Bit ) 600DPI ( 1Bit )	Only for B&W Printing
Fonts	Std.	PCL- Scalable 45 Fonts + International 13 Fonts PS3 – 136 Roman Fonts		Cyrillic, Greek, Hebrew and Arabic Included in International Fonts

# Product Support Guide

## D146 / D147 / D148 / D149 / D150/ D176 / D177

General Features of Printer Controller			
Connectivity	Option	IPDS – 108 Roman Fonts	
	Std.	Ethernet ( 1000Base-T/100Base-T/10Base-T) USB2.0 Type A, USB2.0 Type B, SD card Slot ON Operation Panel	Ethernet 1000Base-T is on board needs to selected by user
	Host Interface Option	IEEE1284 / ECP, Bluetooth & Wireless Lan IEEE802.11a,b,g & n	Bluetooth Cannot be Used on USB port on Operation Panel. Wireless & Bluetooth Cannot be Used at the same time
	Network Protocol	TCP / IP (IPv4,IPv6), IPX/SPX* TCP / IP (IPv4,IPv6), IPX/SPX*	*Optional
	MIB support	Standard MIB (SNMP Printer MIB)	
		Private MIB Ricoh Original	
	Network/Operating System	Windows XP/Vista/7/Server 2003/Server 2008/Server 2008R2/8/Server Unix; Sun Solaris, HP-UX, SCO Open Server, Red Hat Linux, IBM AIX2012 Netware 6.5*7	

### Remarks:

\*1 Shared with other features (Copy, Fax, Scanner).

\*2 Replaced with standard 256MB slot. Max is 1G.

\*3 With the combination of 'Resolution' and 'Gradation' or 'Printing Mode' settings in printer drivers, the variation of print resolution are listed in below table.

\*4 We highly recommend to apply ServicePack1 to Windows Vista before using XPS driver.

\*5 Cyrillic (Russian), Greek, Hebrew and Arabic are included in International Fonts.

\*6 IEEE802.11g is compatible with IEEE802.b.

\*7Netware Option is required.

Scanner			
Color Scan		Standard	
Scanning Speed (normal DF)	B&W	80 pages/minute (A4 LEF / 200dpi/300dpi ) Push Scan 79 pages/minute (LET LEF / 200dpi/300dpi ) Push Scan	
	Color	80 pages/minute (A4 LEF / 200dpi/300dpi ) Push Scan 79 pages/minute (LET LEF / 200dpi/300dpi ) Push Scan

### Novell Netware

Netware Server	Supported Version	Netware 6.5 and later
	Supported OS	Windows XP professional/Vista/2003/2008/7/8/2012

### SAP/R3 Environment (Device Type / Barcode & OCR Package)

Device Type will be provided from SAP itself in SAP Printer Vendor Program.  
For the detailed specification, please refer to another marketing announcement to be issued in the future.

Supported Barcode & OCR Fonts	Barcode Fonts	Code 128, Code 39, Code 93, Codabar, 2 of 5 interleaved/Industrial/Matrix, MSI, USPS, UPC/EAN
	OCR Fonts	OCR A, OCR B

### Utility Software

Software	Description
Device Manager NX Lite	This is a PC Client based application program that monitors and manages up to 250 networked print devices.
Printer Driver Packager NX	Printer Driver Packager NX is a tool for IT managers to customize and package printer drivers. Customizing allows them to control employees' printer driver settings. Packaging allows IT managers to preset all the mandatory parameters for the printer driver installation. Also multiple number of printer drivers can be gathered into one package so they can be installed by end users at single execution
Smart Device Monitor for Client	Smart Device Monitor for Client is a Windows utility that enables users to print directly to printers and to monitor the status of network devices from the Windows taskbar

# Product Support Guide

## D146 / D147 / D148 / D149 / D150/ D176 / D177

Software	Description
Web Smart Device Monitor	Web Smart Device Monitor software gives IT Managers and Helpdesk personnel a central monitoring and control point for networked Multifunctional products, printers, scanners and other devices. Now with a completely redesigned user-friendly interface, it's even easier to configure, organize, diagnose and update network peripherals via a standard web browser. Users must obtain a free product key in order to use Web Smart Device Monitor after the provided 45-day trial period.
PCL 6 Driver	Printer driver for B/W printing and Color printing in Windows. It supports HP PCL XL commands and is optimized for the Windows GDI. High performance printing can be expected.
PCL 5c Driver	Printer driver for color printing in Windows. It supports HP PCL 5c commands. Basically, this is the same driver as PCL5e with color printing functionality added.
PCL6 Driver for Universal Print	PCL 6 driver to offer full functions for Universal Printing. This driver enables users to use various printing devices. The availability of functions will vary by connected printer model.
PostScript3 Driver	By interacting with the Adobe PostScript 3 controller in the device, this driver is able to produce an accurate representation of the screen image.
PS Driver for Universal Print	This PS universal print driver provides significant compatibility with various printing devices; users can enjoy the simple management and easy operation with a single driver. The availability of functions varies by connected printer model.
Driver for XPS	This driver enables to print XPS format file. The XML Paper Specification (XPS) is Microsoft's portable document architecture and forms an integral part of the Windows Vista operating system.
Network WIA Driver	WIA (Windows Image Acquisition) scanner driver for network connections.
LAN Fax Driver	LAN Fax Driver provides the ability to send a FAX via network.

## D146 / D147 / D148 / D149 / D150/ D176 / D177

\*2: "Centering" feature cannot be selected from PCL driver. However PCL has this feature as the original function. When printing with Reduce/Enlarge (Zoom) feature of PCL driver, the output will be automatically centered by the PCL's original centering function.

\*3: This feature cannot be set from printer driver but is set "On" at "PCL setting" of MFP.

\*4: This function is available only when "Black and White" is selected.

### Other MFP Support Information

## Counters

Item	Content	Note
Counter Modes	Page Counter	Default: Page Counter Can be changed by using SP mode.
	Development Counter	
	Coverage Counter (BK/Y/M/C)	
	Coverage Counter (Y/M/C)	
Total Counter Digits	8	
A3/DLT Counts	A3/DLT is counted as 2 counts	Can be changed by using SP mode.
Banner Printing	Any paper size whose length is longer than 420mm is counted as A3/DLT.	

\*Separate A3/DLT counter is available in Administrator Tools only; it can't be displayed in billing counter list on this model.

### Page Counter Mode

Number of Counts in Each Job							
	COPY		PRINT			FAX	
Category on Display	Full Color	Black	Full Color	Black	1C	Black	1C
Color Copy	1						
Black Copy		1					
Color Print			1		1		
Black Print				1			
Color Total	1		1		1		1
Black Total		1		1		1	

### Development Counter Mode

Number of Counts in Each Job							
	COPY		PRINT			FAX	
Category on Display	Full Color	Black	Full Color	Black	1C	Black	1C
YMC Developments	3		3		1		1
BK Developments	1	1	1	1		1	

Basic of Development Counter

Counts based on number of toner used for printing/copying.

Coverage Counter Mode

Threshold of each level

Level 1: 0 - 5% (0%≤X<5%)

# Product Support Guide

## D146 / D147 / D148 / D149 / D150/ D176 / D177

Level 2: 5 - 20% ( $5\% \leq X < 20\%$ )

Level 3: 20% - ( $20\% \leq X$ )

How to calculate coverage% and the "Level"

Sum up the coverage/pixel of each color and round off to the closest whole number.

For example when copying a original of BK=1.3%, Y=1.3%, M=1.3%, C=1.3%:

$1.3+1.3+1.3+1.3 = 5.2$  --> round off --> 5

This original will be counted as "Level 2".

## Paper

### Recommended Throughput Material

Not Applicable

### Non Recommended Throughput Material

Refer to pages in the Operators Instructions Hardware Guide.

Do not use any of the following kinds of paper or a fault might occur:

- Aluminum Foil, Carbon paper,
- Conductive paper
- Paper meant for an inkjet printer
- Bent, folded, or creased paper
- Torn paper
- Thermal fax paper
- Art paper
- Paper with perforated lines
- Hemmed-edge paper
- Tab stock
- Slippery paper
- Perforated paper
- Rough paper
- Thin paper with little stiffness
- Paper with a dusty surface
